### NOTES:

1. The list of works is approved only if these works are available.
2. The list is compiled by sections in chronological order of publication of works with continuous numbering:
  - a) scientific works;
  - b) copyright certificates, diplomas, patents, licenses, information maps, algorithms, projects;
  - c) educational and methodological works.

3. The list shows published works over the last 3 educational years. Works submitted for publication are not included in the list. Abstracts of reports and speeches, newspaper articles, and publications in non-academic journals are not included in this list.
4. Column 2 contains the full title of the work, with the publication type specified in parentheses: monograph, article, textbook, teaching aid, educational and methodological development, etc. If necessary, the language of publication of the work is indicated.
5. Column 3 indicates the appropriate form of work: printed, electronic.
6. In column 4, the place and time of publication are specified (publisher, issue number or series of a periodical, year, pages); the characteristics of the collections are provided (interuniversity, thematic, in-house, etc.), as well as the place and year of their publication. All data are presented in accordance with the rules of bibliographic description of literature.
7. Column 5 indicates the number of printed sheets (pp) of publications (as a fraction: the numerator is the total volume, and the denominator is the volume belonging to the author).
